Dear Allan,

Enclosed is the story, unchanged because after seeing the illustrations Bob didn't say to change it; the illustrations, except for those you have; miscellaneous notes, country by country, and a few other pieces of junk.

Will you please give the enclosed letter to Bob? Thanks. Several of the things you told me to speak to him about we didn't get a chance to discuss. Will you please take them up with him- Wash. Night Life and cards, letterheads and envelopes. You understand that I suggest this because it seems to me to be better for you, to look better. If he doesn't like the idea, I'll have plain ones made for myself, I guess, because in sending stuff to the Honorable guys it looks bad if you dont.

I'm returning your lamp slip. Here the list on the \$750 one is \$9.95, but a perfectly adequate 15-watt plain one, with bulb, brown ~~and~~ crackle finish, desk type, can be gotten (with discount) for \$5.95 with bulb. I just bought one for my kid sister. If you want me to get one for you remind me Mitchell 2050 A.C.

Also, I didn't get a chance to talk to Bob about a name other than Jeff. Hale for the story. You remember we talked of this, and I gave you carte blanche to make me up a name if you can do half that good.

You'll hear from me when I get back to D.C., after Monday.

Sincerely,

Harold
